

We, Candour Machinery Pvt. Ltd. Where Technology combines with engineering brilliance to give the cutting edge to the Plastic Processing equipments.

We believe that the solution arises from within the problem, hence one users friendly and cost effective solution to your entire socketing system. Since each product is unique in it's own way, We designs & customizes special Socketing Machine to suit your particular need. Our socketing machines are used by top name in the industry who prefer nothing but the best.

Fully Automatic Pneumatically operated smooth socket PVC Pipe end belling machine from **20mm to 63mm & 63mm to 110 mm** with one **forming station** of Solid Steel mandrel & **two stage of heating** of PVC pipes & **External Air cooling**, **Monogram Embossing** & **Automatic Ejection**.

## Rotary Indexing Pipe Socketing Machine

### Special Features

- Easy & Quick Changing Tool System.
- Digital Temp. Controller with Sensor for heating system.
- Infrared Heater's heating chamber (inside SS) with suitable Insulation.
- Forced Air Cooling to cool pipe .
- Hard Chrome Plated Mandrels.
- High Quality Standard make Pneumatic Cylinder & Valves.
- Pipe Movement through Pneumatic system for up to 6 meter long PVC Pipes
- Power full Pipe ejection system after socketing.
- Easy operation process with digital display and alarm Indication.
- PLC Controlled Machine with Data Storage Facility.
- Suitable For PVC Pipe From 20 mm to 63 mm & 63mm to 110 mm
